## A bright future full of possibilities

The Monsanto Fund is proud to support post-secondary education opportunities in agriculture and food.

### 2016 APPLICATION FORM

By assisting young people in their pursuit of a college or university education in agriculture or food, we are investing in their future careers – and in the future of agriculture and food production in Canada.

The Monsanto Fund Opportunity Scholarship Program is available to Canadian high school students who are enrolled in their final year of high school as of May 29, 2016 and eligible to graduate from high school in 2016. Those eligible for a scholarship must be planning to enrol at a Canadian post-secondary institution (degree or diploma) in a first-year agriculture, food science or culinary program.

If you have applied for entry into a college or university, but have not yet been accepted, you can still apply for a Monsanto Fund Opportunity Scholarship. However, if you are awarded a

scholarship, you must provide an acceptance letter from your educational institution.

Successful applicants will each be awarded a scholarship valued at \$1,500, based on demonstrated academic standards and leadership in the community. Selection will be made by an independent panel.

Applications must be postmarked no later than June 15, 2016. For additional application forms, visit us online at [www.monsanto.ca](http://www.monsanto.ca)
